

Sanmar Engineering Corporation

Sanmar Engineering Corporation (SEC) is a well-integrated, synergetic Group of engineering companies.

With its beginnings in 1976 rooted in the backward integration efforts of The Sanmar Group, SEC offers a wide range of critical process equipment, contributing significantly to enhanced industrial efficiency and process safety.

These products and systems find application in plant safety, fluid control and energy saving devices. They range from mechanical seals, rupture disks and explosion vents to specialised quarter-turn valves, safety relief valves and high pressure gate, globe and check valves.

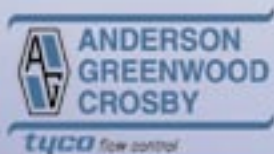

At SEC, there is a clearly articulated emphasis on providing total engineering solutions to clients. With its in-house foundry acting as a reliable supplier of castings—a key raw material for the comprehensive range of products on offer, and a services-and-maintenance outfit that guarantees round-the-clock plant-site operations bolstered by a countrywide network, SEC has, over the years, achieved a seamless integration of a network of facilities that meet the demands of the process industry.

Its abiding belief in a philosophy of entering into and sustaining joint ventures with world leaders—acquiring, assimilating and applying technology appropriate to the critical needs of the end-user—has enabled SEC to develop as India's leading process control equipment manufacturer.

These qualities also mean that SEC is able to provide prompt, cost-effective solutions to all its JV partners, besides ensuring customer delight among more than a thousand domestic clients in the hydrocarbon, chemical and energy sectors. The increasing accent at SEC on adherence to stringent quality specifications, efficient work processes, cost control and on constantly meeting customer expectations on delivery, gives it a globally competitive edge.

Our Longstanding Partners

Sanmar Engineering Corporation

Flowserve Sanmar Ltd.

147, Karapakkam Village, Chennai - 600 097. India
Tel: + 91 44 2450 4100 Fax: + 91 44 2450 2124

BS&B Safety Systems (India) Ltd.

147, Karapakkam Village, Chennai - 600 097. India
Tel: + 91 44 2450 4200 Fax: + 91 44 2450 1056

Sanmar Engineering Services Ltd.

9, Cathedral Road, Chennai - 600 086. India
Tel: + 91 44 2812 8500 Fax: + 91 44 2811 2496
