

Volume No. 9

January - February 2018

Issue No. 1

## From the Editor's desk...

### *Dear Colleagues,*

The New Year is around the corner. We wanted this issue of 'Scribbles' to be different, something we've never tried before.

Some popular lines that crossed our mind...

'A picture is worth a 1000 words.'

'80% of communication is non-verbal.'

'Speak less, act more.'

Thus was born this creative special issue – **Master Strokes.**

We said – no writing! Let the visuals speak for themselves. Let talent across ages speak for itself. Let minds, young and old, communicate.

We announced contests and present in this issue, the winners and the participants. We thank each contributor for making this issue special – to us and to all readers. All participants will get a token gift from us. We also have a spread on the hues from different locations of the Group. At the Group Annual Day, Long Service Awards and Employee of the Year awards were presented. These are captured on the last page.

May the New Year bring in different experiences, lasting learning, better health and more meaning to each of our lives.

With best wishes, thoughts and prayers for 2018.

*Ananda Jagann*
